Dear Editor,

This magazine is very informative and powerful, especially for me. As an insurance agent, I can use the health information to help my customers in disease prevention and management.

I love it so much. Keep up the great work!

Warmest regards,

KB TEW,
Bayan Lepas, Pulau Pinang

Dear Editor,

I have been a type-1 diabetic for 30 years and have been on insulin shots twice a day all this time. Having to use syringes has been very painful, but I have had no choice but to make it a part of my life.

Then I came across the article in your magazine about the new gadget called Injex (November 2008). It has been a saviour to me. My brother-in-law decided to surf the Net to find out more about this product and managed to contact the distributor.

I have now been on Injex for two weeks and it has totally wiped out the 30 years of pain I have been enduring with syringes. I would like to say a big 'thank you' for publishing that article because it has saved me from daily pain.

I am really grateful for this new device and would not have known about it had I not seen it in your magazine.

A big thank you to you and your team!

Cheers,
JESSICA DIAS,
Kuala Lumpur

Dear Editor,

While in my school library, I came across a copy of your magazine. I made some really interesting discoveries, especially the article on Dental Health: Gum Disease (February 2009). The article has made me more disciplined in taking care of my oral hygiene.

I also find that the magazine has made me more knowledgeable about health issues.

Thank you for changing my perspective on health. Continue the good work. I look forward to the next issue of this compact and brilliant magazine!

Regards,
MAJDUDDIN,
Machang,
Kelantan

Dear Editor,

Your report on breast-feeding (August 2008) was most informative and full of practical guidelines. I wonder if you have a Chinese translation of the article for the benefit of my Chinese-educated patients. I run a private medical clinic in Kepong.

Thank you.
Dr CHEN BIOW,
Kepong

Ed: Sadly, we do not have a translated version of the special report on breast-feeding.

Published letters will receive a B2B Quick Shake worth RM29.50 each courtesy of Tupperware Malaysia.
