BEST STORAGE CONTAINERS TUPPERWARE®

Order In A Modern Home

Space-saving, stylish and functional, Tupperware® has been providing good living solutions for years

Trusted for generations and designed for everyday use, Tupperware® products have passed stringent tests and are built to last. Plus they are quality products that are food-grade safe, which is integral to health. They are also designed for repeated use, thus reducing garbage.

But the testimony to Tupperware® usage is best found in the millions of homes world wide. Responding to the philosophy of finding the ultimate use of space and

function, Tupperware® has brought order to the modern home and kitchen by introducing a delightful range of storage systems and utensils.

One of the most popular ranges is the innovative One Touch. With arrows pointing to the centre of the seal, just one press of the finger is all it takes to have it sealed, air-tight.

One Touch Canisters and Toppers are easy to use, air-tight and hard-wearing,

making them the obvious choice for storing frequently-used food stuff.

Their timeless designs, available in a wide range of colours, and wide range of products ensures that there will always be right Tupperware® to cater to your needs.

Tupperware® products are available at all authorised business centres. You can call our toll free number at 1300 88 5500 or log on to www.tupperwarebrands.com.my for more information.

MODULAR MATES

The range of Modular Mates containers come in various shapes and sizes. Its modularised concept means it can be customised to fit shelves in kitchens of any size, keeping cabinets organised yet functional. Also, it helps you maximise your kitchen storage space and is perfect for dry storage.

THE POPULAR SQUARE ROUND

The best containers for your fridge should keep food fresh, minimise space and accommodate just about whatever you like – from leftovers, fruit slices and chopped veggies to sandwich fillings and garnishes.

RICE DISPENSER

This is an elegant solution that easily dispenses, keeps rice fresh and minimises weevil infestation in old rice. This nifty device adopts the FIFO (first-in-first-out) method, so rice is rotated for freshness. It also dispenses rice in the accurate amount you need without any spills.

WATER STORAGE

Quench your thirst when on the go with these portable and stylish carriers. There's one for every need. Thanks to their food-grade quality, chemicals don't leak into the stored water, so you can drink safely.

DID YOU KNOW?

Tupperware® has a lifetime warranty. You can replace, free of charge, any Tupperware® product or any part that, under normal domestic use, shows a manufacturing defect. Now that's value for money!
