Tupperware Water Containers

Trusted the world over for more than 60 years, the premium quality Tupperware products are safe for your everyday use. Made from food-grade materials, they are superior quality products that are designed to last a lifetime.

Tested and proven to not leach chemicals, Tupperware water containers are safe to use and reuse. Choosing Tupperware water containers also helps you do your bit to save the environment as it can be used repeatedly, thus reducing garbage.

There is a wide range of sizes to suit everyone, and every occasion which means you will no longer need disposable water bottles or paper cups for your drinks. By bringing your own drinking water while outdoors, you are already taking the first step in contributing positively to the environment! What's more, with Tupperware reusable drinking containers you are able to replace hundreds of PET bottles that are dumped into landfills and pollute our environment.

Tupperware products are available at all Tupperware Authorised Business Centres. Call 1300 88 5500 or visit www.tupperwarebrands.com.my for details.
