

THE PERFECT package

ONE TOUCH SUNSHINE SET (RM211.30/ERM244).

Surprise mum this Mother's Day with something thoughtful (and useful!) from Tupperware's latest range

IT was back in 1949 when Tupperware first designed an innovative light-weight product that came with its famous virtually air-tight seal. By pressing down on the canister's flexible polyethylene lid, air is expelled from inside, causing the lid to tighten, forming a virtually airtight seal. Today, Tupperware has further improved these innovative features. Now you can get an airtight container that seals with just a single touch of your finger. Follow the arrows pointing to the centre of the seal and press once to seal it tight – so you can enjoy food that stays fresh and crisp always! One Touch Canisters and Toppers are so easy to use, airtight, and long-lasting which make them great for storing any food stuff – and an ideal Mother's Day gift!

For Mums On The Go

Don't we just love our mothers for their warmth, dedication and amazing cooking skills? So why not present her with Tupperware's Mums On-The-Go Set this Mother's Day. She is sure to adore The CrystalWave Divided Dish and CrystalWave Soup Mug which comes in bright, chic colours. Including cutlery and a trendy keep-warm Lunch Tote – mum's lunch at the office will never be the same!

MUMS ON-THE-GO SET
(RM92.90/
ERM106.30).
