NUTRIMETICS SPECIAL

The Power Of Botanicals!

Be kind to your skin by treating it to natural goodness. Nutrimetics has just the pampering products for you.

For many centuries, women have turned to the hands of nature when it comes to beauty. That's why till today, natural ingredients like botanical extracts and oil are popular when it comes to beautiful skin. Makes complete sense too as research has shown that our skin can truly benefit from products that are 100 per cent natural. Which is exactly the philosophy behind the Nutrimetics range of products enriched with Apricot Kernel Oil and powered by an additional 50 botanical extracts. This skin-loving range nurtures your skin day after day, keeping it in optimal condition.

BOTANICAL EXTRACTS

Chamomile, apricot fruit, rosehip, peppermint, orange and lemon... you name it, and it's good for your skin! Compared to synthetics, botanicals are similar to the skin with its complex nature. Because of this, they can easily integrate with skin cells so effectiveness is boosted. Not only that, botanicals are safe to put on skin and don't have adverse effects that synthetics have.

Nutrimetics is exclusively available at all Tupperware Brands Authorized Business Centres. Call 1300-88 5300 or log onto www.tupperwarebrands.com.my for more information.
