Secrets of Water

Bring purified water with the goodness of spring water into your home with the Nano Nature Water Filtration System by Tupperware Brands. Its 3 step filtration system kills bacteria, removes impurities and enhances the PH value of water for optimum wellness. The secret lies in the "healing stone" also known as Bukuhan-seki by the Japanese that absorbs impurities and releases natural minerals back into the water.

The Nano Nature Water Filtration System retails at \$1228.

Contemporary Chic Doors

Exclusively from Besglas, the MOVI Door's SmartSeal™ caulks gaps at the bottom of the door to effectively minimise dust and noise coming in from the outside. MOVI Door is available in an array of beautiful and durable materials making it easy to create a lasting impression in your home. For a more seamless design to your space, opt for the MOVI Sliding Door that offers a cleaner look and glides perfectly across the guide each time.

Visit www.besglas.com for more information.

Keeping the Fine Vintage

For those with an appreciation for fine wines, Sowine is the perfect appliance to accompany your quest for the best. Sowine stores your red and white wine at the right serving temperature with its 2 independent temperature controlled compartments. Featuring an independent oxygen extraction device, the appliance allows you to store your unconsumed wine for up to 10 days.

Sowine can be purchased online at www.sowine.com.sg or at EuroCave showroom, Crystal Wines and Rina Electrical retail shops.
