Italians enjoy golden, glowing skin thanks in part to an olive oil-based diet. ## NICE AND TIDY

With the convenient Tupperware Rice Dispenser, you are sure to keep your kitchen neat and mess-free

It goes without saying, rice is the main staple food in any Malaysian household. No matter what's on the menu for the day, our homecooked meals always feel complete when accompanied with hot, fluffy rice. But when it comes to storing your uncooked rice in a busy kitchen, you may not have a proper storage unit. The Tupperware Rice Dispenser is a functional, practical and easy way to store rice. Its ingenious design features a slide drawer that dispenses exactly 150g (one standard cup) of rice for you. Unlike normal food containers, it has a non-slip rubber base that also helps to keep water out. This dispenser also cleverly employs a "first-in-first-out" method, where it rotates rice for freshness. Its great shape also ensures it fits seamlessly into your kitchen or pantry while keeping your counter tops tidy and clutter-free.

Tupperware products are exclusively available at all Tupperware Brands Authorized Business Centres. Call 1 300 88 3000 or log onto [www.tupperwarebrands.com.my](http://www.tupperwarebrands.com.my) for more information.
