QUALITY RICE EVERY DAY

Tupperware RiceSmart ensures that every grain of rice stays fresh and nutritious.

It's no secret why the Tupperware RiceSmart container is a favourite go-to for home cooks. It features new innovations that save space and help make cooking convenient for you, like how the container's transparent body lets you know when to get a new bag of rice. With one slide, the RiceSmart dispenses just what you need for two people – this takes the hassle out of measuring with a cup. It also keeps your grains fresh with its "first-in-first-out" system, keeping your family well-nourished.

1 With a soft pull, you'll ensure your rice is always fresh as what is filled in first, will be used first.

2 For your convenience, the RiceSmart dispenses exactly one cup (150g) of rice with every slide.

3 The RiceSmart will be a perfect fit in your kitchen as it's slim and compact, yet able to store 10kg of grains.

LIVING

FOOD HIGHLIGHT

Entertaining Made Easy

Throw an elegant, easy feast for the whole family this Aidilfitri with these simple tips

The festive season of Hari Raya Aidilfitri is here again and with it comes a time for togetherness, family gatherings, as well as food and feasting. Make it less of a hassle for you to serve everything you've cooked with the right serveware and utensils.

- 1. Prep ahead by doing what you can the night before.** Be it for a small gathering of five or a party of 30, set the table the night before so you have time to handle unexpected tasks that may crop up the next day.
- 2. Give yourself a break and make it easy to store leftovers after the party.** Use microwave-friendly containers to make warming up easy. In fact, you can prepare your dishes much earlier and freeze them, move them to the fridge a few hours before guests start to arrive and reheat in the microwave straight from the fridge.
- 3. Raya is a great time to catch up with friends and family, and indulge in delicious, home-style food.** A great hostess doesn't have to

do it all on her own, so why not enlist the help of a few family members or guests by asking them to set up the buffet, or organise the kuih Raya station? Make introductions, mingle, and then enjoy the party!

- 4. Turn your centrepieces to edible ones!** Bring colour to the table with fresh fruits and vegetables or rows of lemong.

- 5. Wow guests with the perfect table setting.** We like the limited edition Raya 2018 Royal Red Serving Set and Royal Red Rose One Touch collection from Tupperware. The sets come in the elegant and festive hue of red that is sure to whet your guests' appetite and reaching out for seconds. The Royal Red Serving is microwave-safe, while the Royal Red Rose One Touch containers are airtight and liquid-tight, so you can store sauces and liquid stocks without worrying about leaks.
